PROJECT EXPERIENCE

ARK — Community Assistance Web Application

- Collaborating with other team members to discuss and develop design and function of application
- Creating wireframe models to add visualization to my ideas for the project
- Developing user stories to keep design discussions 'user-focused'

WORK EXPERIENCE

Electronic Surveillance Technician, Sprint, Overland Park, KS, September 2010 – July 2014

- Provided law enforcement agencies, upon proper legal demand, with electronic surveillance capabilities regarding mobile subscriber accounts.
- Designed, Developed, Deployed, and Maintained Electronic Surveillance Case Assistant application. An application written in self-taught VBA to automate and expedite the duties of an Electronic Surveillance Technician.
 - Provided functionality to connect to 47 other databases and network systems
 - Queried and processed results from multiple databases
 - Calculated accurate past and future dates accounting for time zone and Daylight-Saving Time changes
 - Logged case activities and transmitted logs to supervisor weekly for workload tracking requirements

Dispatch Manager, Quicksilver Airport Shuttle, Overland Park, KS, April 2008 – June 2010

- Scheduled Employee Drivers and Independent Contractors based on passenger volume, physical location, time of arrival or departure, and other variables affecting driver/vehicle/passenger availability.
- Configured and maintained company website, LAN, and reservations database.
- Conferred with ownership regarding hiring, reward, discipline, and termination of employees

Paralegal, Stephen Bolton, P.A., Overland Park, KS, September 2005 – March 2008

- Provided research, managerial, and client relation services for small law-office
- Conferred with clients and attorneys regarding various aspects of their legal proceedings
- Communicated with clients, attorneys, corporations, courts, and various other entities through telephone, email, and online resources
